

ISARA YACHTS

INTRODUCING THE ISARA 50 SAILING CATAMARAN

# The Philosophy

The Isara 50 has been designed as a living space as well as a boat. The 'less camping more hotel' attitude has been the philosophy of the design team from the very start.

At Isara we know your free time is precious and from the moment you step aboard to the moment you go to sleep we have tried to think of everything to make your trip the most 'comfortable' experience, both in terms of the practical and the luxury.

Built by Tayana Yachts, one of the worlds premier yacht builders for a quarter of a century, respected for their strong well build semi bespoke cruising yachts around the globe.

## Isara Yachts by design

 ISARA YACHTS

 ISARA YACHTS

 ISARA YACHTS

All sail handling, engine and boat controls, including the anchor, are at the helmsman's fingertips from the elevated 'see all points' helm position.

Safe access to the fly-bridge from both starboard and port.

Large sunbathing area and seating for guests with a fold out drinks / snacks table.

BOARDING PLATFORM

 ISARA YACHTS

The spacious cockpit provides a dining table with seating for the full complement of guests.

With the table folded, it becomes a spacious covered space for sundowners and BBQs under cover.

A built in electric griddle provides easy and safe al-fresco cooking.

ISARA 50 SAIL  
COCKPIT

Electric roller reefing for the Genoa enables 'touch of a button' reefing, furling or deployment.

Roller furling for the Gennaker enables easy handling of the giant 145sq m sail to maximise off wind performance.

HEADS

The saloon is the most spacious living space to be found on any production or semi production yacht .

Boasting dining space for the entire complement of guests, the saloon also has a large galley designed for catering at the highest levels.

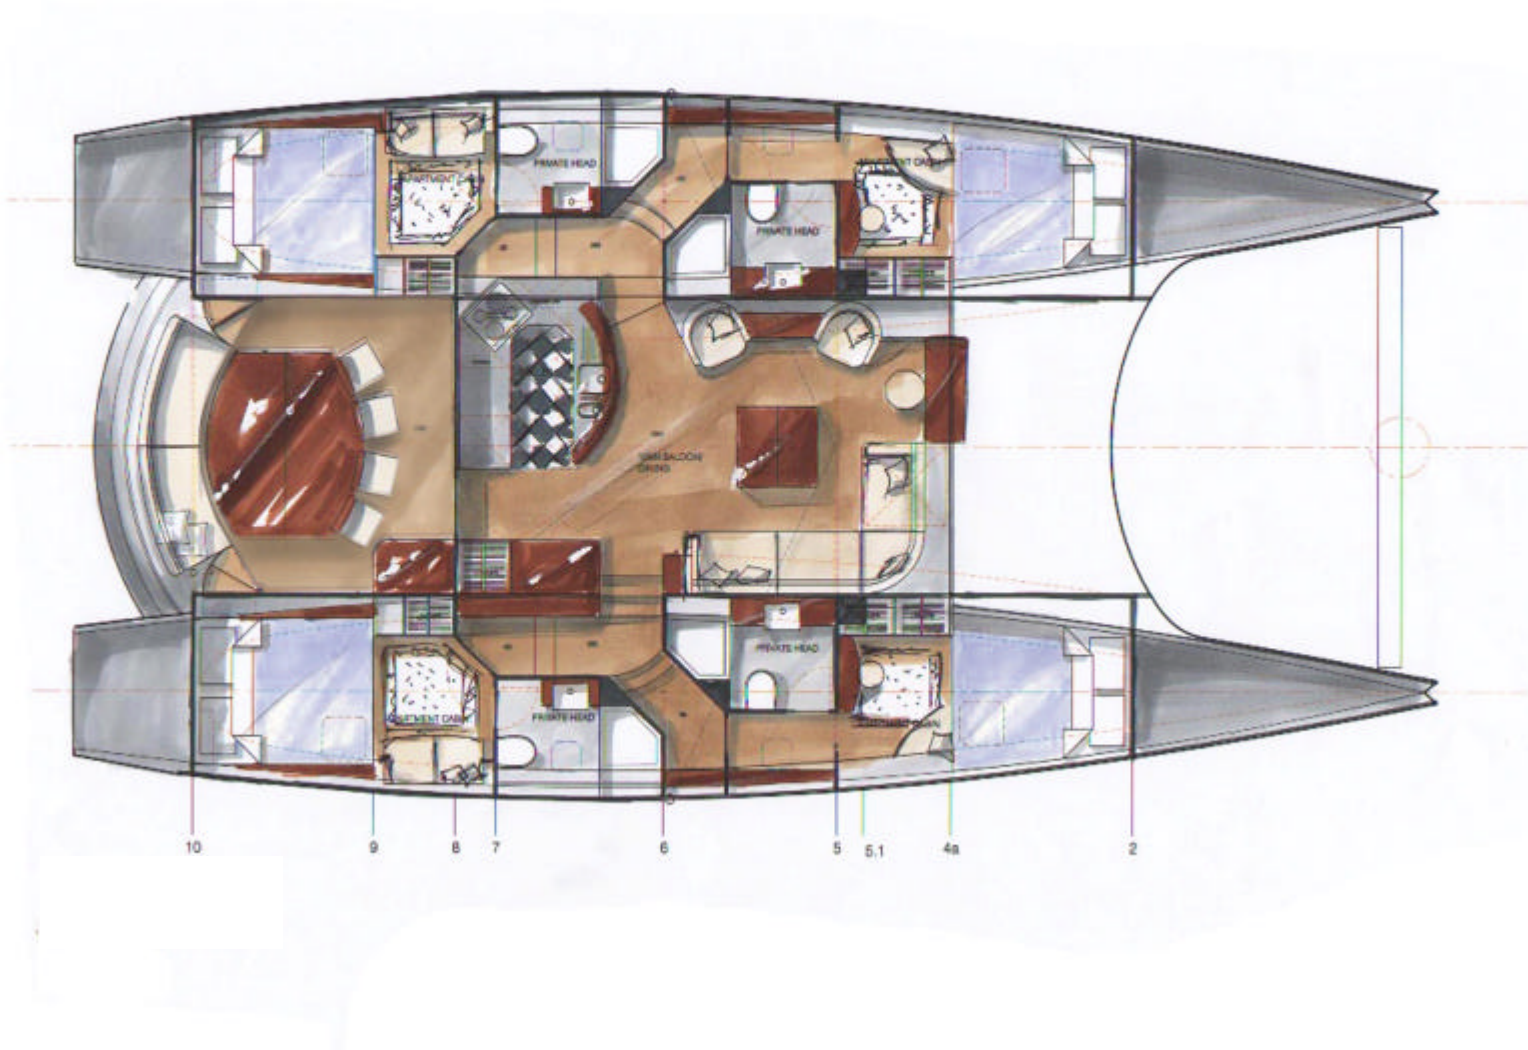

The galley includes ample fridge space, a freezer, a dishwasher and microwave, as well as oven and hob.
